

# Safety Nets Australia

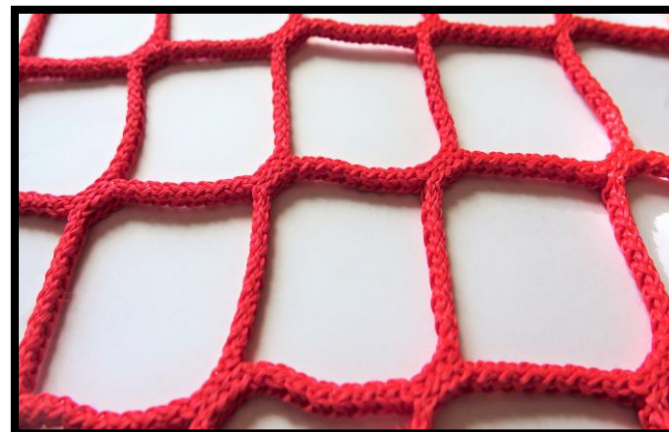

Our Safety Nets are Manufactured to highest quality and in Accordance ISO9001/ EN1263-1.  
The HTPP fibre is highly resistant to abrasion, resistant to moisture, chemicals and with 'UV' treatment added for longer life. **We manufacture Safety Nets and Fire Retardant Netting** to suit many different applications, and from standard sizes to custom made.  
Our drop test has proven to capture 100kg from the height of 10m and can withstand wind load up to 150kmh)\*

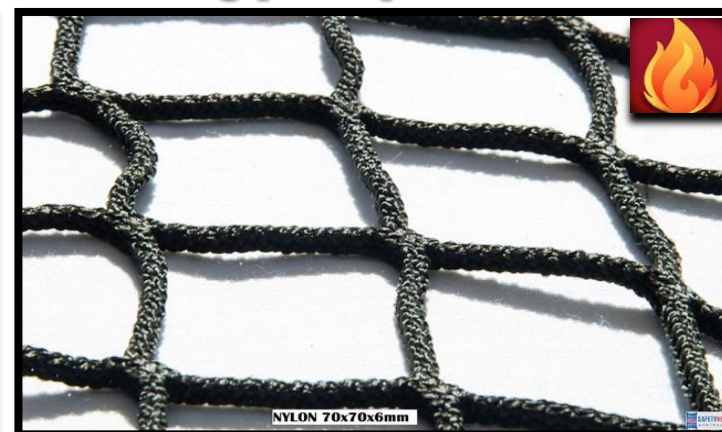

**45x45x5mm**  
**330kg per square mesh**

**45x45x5mm**  
**300kg per square mesh**

**60x60x5mm**  
**220kg per square mesh**

**Nylon 70x70x6mm**  
**400kg per square mesh**

**100x100x5mm**  
**220kg per square mesh**

**Manufactured Safety Nets SPECIFICATION**  
Twine/Mesh Cord Size 5mm ( Aperture size 100mm, 60mm, 45mm) |  
Breaking Force 2.2kn | **BORDER ROPE** 30KN | 12MM 3 STRAND  
SWL: 350kg| Breaking Strain 220kg each square Mesh.

## Protection Netting

Creates a safer working environment from falling objects for vertical Applications  
Nets are strong and of low weight.  
**Flexibility to have nets removed and reinstalled**

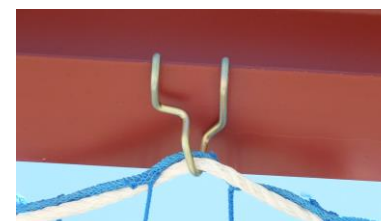

**Fire Retardant**  
**12x12mmx15ply**

**18x18x15ply**

**After Sport Netting,  
Bird Netting, different  
range, Size and Aperture  
Call US.**

## Fixing Devices and Attachments

Claw Hook/900kg

SNA Strap/500kg

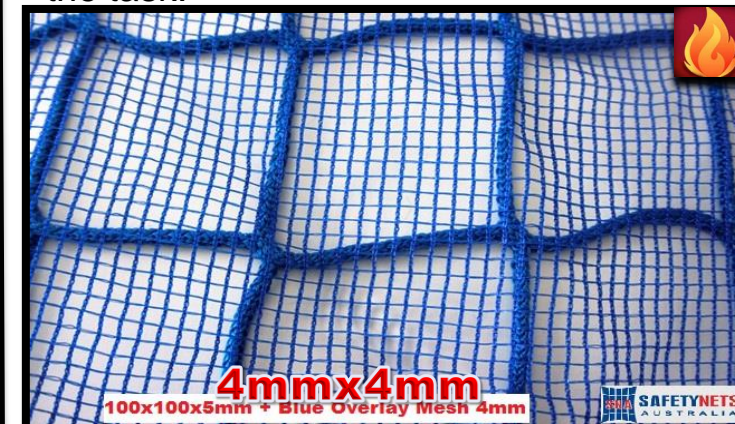

2m/3t Tie Rope

Karabiner/ 22Kn

## Overlay Mesh

With Safety Nets you can combine layer of various types of **Debris Mesh / Canvas** to stop even the fine objects from falling through. This will ensure the Workers and Public are protected below the task.

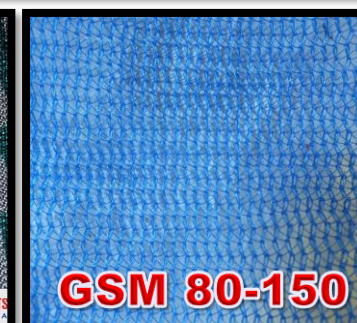

**4mmx4mm**  
**100x100x5mm + Blue Overlay Mesh 4mm**

**Canvas**
